

# Carbon Reduction Plan

Supplier name: **Deprivation.org**  
Publication date: **1<sup>st</sup> January 2022**

## Commitment to achieving Net Zero

**Deprivation.org** is committed to achieving Net Zero emissions by **2050**.

## Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

<b>Baseline Year: 2021</b>	
<b>Additional Details relating to the Baseline Emissions calculations.</b>	
Financial Year 2021 represents the first time Deprivation.org has estimated a carbon footprint. This is therefore presented in this Carbon Reduction Plan as both the Baseline and Current scenarios.	
<b>Baseline year emissions:</b>	
<b>EMISSIONS</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>
<b>Scope 1</b>	<b>0 (zero) tCO<sub>2</sub>e</b>  <b>Notes:</b> (1) Deprivation.org rents office space from a landlord organisation. Deprivation.org does not have any control over the electricity or gas contracts adopted by the building landlord. (2) Deprivation.org does not own or lease any vehicles.

<b>Scope 2</b>	<p><b>0.56 tCO<sub>2</sub>e</b></p> <p><b>Notes:</b></p> <ul style="list-style-type: none"> <li>(1) Deprivation.org rents office space from a landlord organisation.</li> <li>(2) The monthly rental fee is inclusive of all utilities. We are not provided with a breakdown of costs per utility.</li> <li>(3) We estimate that the combined electricity and gas usage for the office equates to approximately 200 kwh per month. Assuming 0.233 kg of CO<sub>2</sub>e per kwh, this equates to 46.6 kg of CO<sub>2</sub>e per month, or approximately 560 kg CO<sub>2</sub>e per year. This can be expressed as 0.56 tCO<sub>2</sub>e per year.</li> <li>(4) We will strive to increase the accuracy of these estimates in future iterations of our Carbon Reduction Plan, such as by requesting more specific usage figures for our particular office space from the building landlord organisation.</li> </ul>										
<b>Scope 3 (Included Sources)</b>	<p><b>0 (zero) tCO<sub>2</sub>e</b></p> <p><b>Composed of the following:</b></p> <table border="1" data-bbox="491 947 1236 1133"> <tr> <td>Upstream transportation and Distribution</td> <td>0</td> </tr> <tr> <td>Waste generated in operations</td> <td>0</td> </tr> <tr> <td>Business travel</td> <td>0</td> </tr> <tr> <td>Employee commuting</td> <td>0</td> </tr> <tr> <td>Downstream transportation and distribution</td> <td>0</td> </tr> </table> <p><b>Notes:</b></p> <ul style="list-style-type: none"> <li>(1) Deprivation.org undertakes desk-based academic research. This involves no upstream or downstream transportation or distribution, and involves no generation of waste through operations.</li> <li>(2) As Deprivation.org’s research is entirely desk-based, there is minimal business travel. Any future business travel that is required would be undertaken by public transport.</li> <li>(3) (3) Deprivation.org employees commute via zero emission transport means.</li> </ul>	Upstream transportation and Distribution	0	Waste generated in operations	0	Business travel	0	Employee commuting	0	Downstream transportation and distribution	0
Upstream transportation and Distribution	0										
Waste generated in operations	0										
Business travel	0										
Employee commuting	0										
Downstream transportation and distribution	0										
<b>Total Emissions</b>	<p><b>0.56 tCO<sub>2</sub>e</b></p>										

## Current Emissions Reporting

Reporting Year: 2021	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	0 (zero), as per baseline
Scope 2	0.56 tCO <sub>2</sub> e, as per baseline  Note: this is identical to our baseline figures described above, as this is the first iteration of our Carbon Reduction Plan.
Scope 3 (Included Sources)	0 (zero), as per baseline
Total Emissions	0.56 tCO <sub>2</sub> e

## Emissions reduction targets

In order to achieve progress towards achieving Net Zero, we have adopted the following carbon reduction target:

*We aim to reduce our carbon emissions by 5% over the next five years.*

## Carbon Reduction Projects

### Completed Carbon Reduction Initiatives

As 2021 is the baseline year for Deprivation.org's carbon reduction plan, we do not yet have any examples of completed carbon reduction initiatives.

### Ongoing Carbon Reduction Initiatives

We continue to encourage and facilitate daily commuting by zero emission means.

### Anticipated Future Carbon Reduction Initiatives

In the future we hope to implement further measures such as encouraging our customers and suppliers to adopt green(er) energy sources.

## Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>1</sup> and uses the appropriate [Government emission conversion factors for greenhouse gas company reporting](#)<sup>2</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>3</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

**Signed on behalf of the Supplier:**

Executive Director
